

# Module-1

## Assignment-1

### CODE:

```
package Module_1;
import java.io.*;
public class friends {
    public static void main(String args[]) throws IOException{
        InputStreamReader isr=new InputStreamReader(System.in);
        BufferedReader br=new BufferedReader(isr);
        System.out.println("Enter the number from Michael: ");
        double a=Double.parseDouble(br.readLine());
        System.out.println("Enter the number from Bruce: ");
        double b=Double.parseDouble(br.readLine());
        if(a>b) {
            System.out.println("Bruce should forget about the girl
and get out of Michael's way.");
        }
        else {
            System.out.println("Michael should forget about the girl
and get out of Bruce's way.");
        }
    }
}
```

### OUTPUT:

```
Enter the number from Michael:
56321
Enter the number from Bruce:
78965
Michael should forget about the girl and get out of Bruce's way.
```
